6. Approve and delegate authority to the Interim Director of Health Services, or his designee, to increase the total maximum obligation of each of the above-mentioned Agreements by no more than 25 percent above their respective first-year maximum obligations for a potential annual increase of \$343,119 and a grand total potential increase through June 30, 2013 of \$1,352,183 for equipment coming off warranty, emergency or unanticipated equipment maintenance and repair services. The first-year maximum obligations, including the potential increases, are \$1,784,674 and the grand total for all of the above amendments including the potential increases is \$7,608,544. The maximum obligations, including potential increases for each DHS facility by Amendment, are identified on Attachment A.

Honorable Board of Supervisors  
June 10, 2008  
Page 3

### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS**

Board approval of the recommended actions will enable DHS to amend the terms of the existing Agreements, substantially similar to Exhibits I, II, III, IV, and V, for the provision of maintenance and repair services for critical medical equipment, as well as medical transcription equipment services.

When possible, DHS contracts with Original Equipment Manufacturers (OEMs) to ensure that the equipment, which often uses proprietary technology, performs in accordance with equipment specifications and complies with all accrediting and licensing agencies' requirements, including The Joint Commission. Fuji, Gyrus, NSpire, Varian, and Medquist are OEMs.

Delegated authority to increase the contract sum by no more than 25 percent to ensure that all DHS facilities can obtain necessary services for equipment coming off warranty and for unanticipated equipment maintenance and repair services to guarantee timely maintenance and ensure compliance with The Joint Commission standards.

### **FISCAL IMPACT/FINANCING**

The first year maximum obligation for these amendments is \$1,754,874, of which \$1,411,556 is for the continuation of services and \$343,119 is for potential estimated increases under delegated authority. The annual maximum obligations for each DHS facility by Amendment are identified on Attachment A. Any increase implemented under delegated authority will be funded within existing resources. Funding is included in DHS' FY 2008-09 Proposed Budget and will be requested in future fiscal years.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

The proposed Amendments will continue the provision of preventive maintenance and repair services for medical and medical transcription equipment at various DHS facilities. The equipment shall be maintained in accordance with the manufacturer's performance standards and in compliance with all accrediting and reviewing agencies' requirements, including The Joint Commission.

#### **Medquist**

On June 29, 2004, your Board approved an Agreement with Lanier Healthcare, LLC., a subsidiary of Medquist, to provide maintenance and repair services for medical transcription equipment at various DHS facilities. On May 16, 2006, your Board approved an amendment that assigned and delegated the rights and responsibilities to Medquist effective through June 30, 2007. Most recently, on May 29, 2007, your Board approved an amendment to extend services through June 30, 2008.

Honorable Board of Supervisors  
June 10, 2008  
Page 4

Medquist requested a rate increase of 15 percent for this Amendment. The Department negotiated a reduced increase of four percent. Medquist indicated they would not sign the Amendment without the requested rate increase.

DHS had previously advised your Board that a Request for Proposals (RFP) was going to be conducted for medical transcription services. However, while gathering the facilities' requirements for medical transcription services as part of the RFP process, it was determined that there may be significant costs associated with implementing a potentially different medical transcription system than the one currently in place at the facilities. Accordingly, the Department is requesting this extension to ensure the equipment is properly maintained while the Department continues to evaluate best options for providing medical transcription services at DHS facilities.

Fuji

On April 2, 2002, your Board approved a sole source agreement with Fuji for equipment maintenance and repair services at MLK-MACC (then MLK, Jr. – Drew Medical Center) and LAC+USC, effective April 2, 2002 through June 30, 2005. On May 6, 2004, your Board approved Amendment No. 1 which extended the term through June 30, 2008, and added two new facilities, OV-UCLA and H. H. Humphrey Comprehensive Health Center. Subsequently, under delegated authority, DHS added other facilities including H-UCLA, HDHS, RLANRC and the three comprehensive health centers in the LAC+USC Healthcare Network, H. C. Hudson, El Monte, and E. R. Roybal increasing the contract total to \$595,226.

During the term of this Amendment, DHS will continue its implementation of the Fuji Picture Archive and Communications System (PACS) on a Department-wide phased-in basis to replace the obsolete radiology systems at the facilities. Fuji PACS uses web-based digital technology to receive diagnostic images, organize them, store them in a database and display them for doctors and clinicians to view. Fuji PACS allows multiple viewers throughout the healthcare network to access patient data which will facilitate efficient and appropriate patient care. LAC+USC was the first facility to implement Fuji PACS. OV-UCLA completed implementation of Fuji PACS in September 2006, RLANRC in March 2007, HDHS in June 2007, and H-UCLA in December 2007. MLK MACC will be the last facility to implement Fuji PACS and that is expected to be installed later this year.

The equipment and software are covered under a one year warranty which starts from the implementation or "go live" date. When the warranty expires, the equipment needs to be added to the service contract. Accordingly, the extension amendment reflects increased annual costs for the fiscal year periods which correlate to the projected dates that the equipment will come off warranty. Also, during this extension, some older equipment will reach its "end-of-life" and will no longer be serviced by Fuji, reducing the overall contract cost. Since the Fuji equipment is used for patient diagnoses, the equipment is regulated by

Honorable Board of Supervisors  
June 10, 2008  
Page 5

the Food and Drug Administration as "medical devices" and must be appropriately serviced and maintained. Consequently, provision of service maintenance is necessary to ensure that the equipment complies with all regulations.

Gyrus

On August 1, 2007, DHS executed an agreement with Gyrus effective through July 31, 2008, with a maximum obligation of \$99,000 under delegated authority authorized by your Board on June 7, 2006. Both H-UCLA and OV-UCLA will obtain services for various endoscopes. Although DHS was seeking a three-year extension, the contractor agreed to no longer than a two-year extension under the same terms and conditions.

NSpire

NSpire is the manufacturer of the pulmonary diagnostic equipment used at LAC+USC. They are the only authorized provider of service and repair for this equipment, and the warranty expired on July 31, 2007. This equipment performs cardiopulmonary function testing on patients. On August 1, 2007, DHS executed an agreement effective through July 31, 2008 with an annual maximum obligation of \$28,550 under the same delegated authority used to execute the Agreement with Gyrus. LAC+USC is adding another pulmonary system to this Agreement effective August 1, 2008. NSpire has agreed to extend the agreement under the same terms and conditions for five years through July 31, 2013.

Varian

On December 14, 2004, your Board approved a sole source agreement with Varian for the provision of oncology radiation therapy equipment maintenance and repair services at LAC+USC effective through June 30, 2008. On December 18, 2007, your Board delegated authority to the Director to amend the Agreement with Varian on a month-to-month basis, beyond the existing expiration date of June 30, 2008, if necessary, until the opening date of the Replacement Facility at LAC+USC. Varian has informed DHS that they will not extend this Agreement beyond September 30, 2008 under the same terms and conditions. Varian's current service plan will no longer be offered after September 30, 2008. Subsequent to September 30, 2008, the quarterly cost for the oncology radiation therapy equipment will remain the same under the new service plan, however, the quarterly cost of the software will increase from \$2,746 to \$7,130. The new service plan provides additional services including expanded technical phone support to seven days a week/12 hours/day. The Replacement Facility will be using new Varian equipment which will be covered under warranty; however, this service Agreement must remain in place for the existing equipment

Honorable Board of Supervisors  
June 10, 2008  
Page 6

for three to six months after the Replacement Facility is operational to ensure the new Varian equipment complies with all radiation therapy specifications. The Interim Director may terminate the Agreement with ten days prior written notice, if needed.

The Amendments contain the latest Board-mandated provisions. The County may terminate the Agreements with ten days prior written notice with Varian and 30 days prior written notice with Fuji, Gyrus, and NSpire. DHS has determined that these are not Proposition A agreements because the services provided are intermittent and highly specialized, therefore, the County's Living Wage Program does not apply.

County Counsel has reviewed and approved Exhibits I, II, III, IV, and V as to form.

### **CONTRACTING PROCESS**

These vendors are OEMs. The equipment was purchased from these vendors and warranties were obtained. When the warranties expired, the Department obtained maintenance services from the manufacturer's authorized service representative. OEMs ensure that the equipment, which often uses proprietary technology, performs in accordance with manufacturer specifications and complies with all accrediting and licensing agencies' requirements, including The Joint Commission.

### **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

Approval of these actions will allow DHS to ensure critical maintenance and repair services are provided for equipment located at various facilities.

When approved, DHS requires three signed copies of the Board's action.

Respectfully submitted,

WILLIAM T FUJIOKA  
Chief Executive Officer

6. Agreement Paragraph 7, PROHIBITION AGAINST ASSIGNMENT AND DELEGATION, shall be replaced in its entirety to read as follows:

A. Contractor shall not assign its rights or delegate its duties under this Agreement, or both, whether in whole or in part, without the prior written consent of County. Any assignment or delegation which does not have such prior County consent shall be null and void. For purposes of this Paragraph, such County consent shall require a written amendment to this Agreement which is formally approved and executed by the parties. Any billings to County by any delegatee or assignee on any claim under this Agreement, absent such County's consent, shall not be paid by County. Any payments by County to any delegatee or assignee on any claim under this Agreement, in consequence of any such County consent, shall reduce dollar for dollar any claims which Contractor may have against County and shall be subject to setoff, recoupment or other reduction of claims which County may have against Contractor, whether under this Agreement or otherwise.

B. Shareholders or partners, or both, of Contractor may sell, exchange, assign, divest, or otherwise transfer any interest they may have therein. However, in the event any such sale, exchange,

assignment, divestment or other transfer is effected in such a way as to give majority control of Contractor to any person(s), corporation, partnership or legal entity other than the majority controlling interest therein at the time of execution of this Agreement, then prior written consent thereof by County's Board of Supervisors shall be required. Any payments by County to Contractor on any claim under this Agreement shall not waive or constitute such County consent. Consent to any such sale, exchange, assignment, divestment, or other transfer shall be refused only if County, in its sole judgment, determines that the transferee(s) is (are) lacking in experience, capability and financial ability to perform all Agreement services and other work. This in no way limits any County right found elsewhere in this Agreement, including, but not limited to, any right to terminate this Agreement.

C. Any assumption, assignment, delegation, or takeover of any of the Contractor's duties, responsibilities, obligations, or performance of same by any entity other than the Contractor, whether through assignment, subcontract, delegation, merger, buyout, or any other mechanism, with or without consideration for any reason whatsoever without County's express prior written approval, shall be a material breach of the Agreement which may result in

the termination of the Agreement. In the event of such termination, County shall be entitled to pursue the same remedies against Contractor as it could pursue in the event of default by Contractor."

8. Additional Provisions Paragraph 40, CONTRACTOR RESPONSIBILITY AND DEBARMENT shall be replaced in its entirety to read as follows:

"40. CONTRACTOR RESPONSIBILITY AND DEBARMENT:

A. A responsible Contractor is a Contractor who has demonstrated the attribute of trustworthiness, as well as quality, fitness, capacity and experience to satisfactorily perform the contract. It is County's policy to conduct business only with responsible contractors.

B. Contractor is hereby notified that, in accordance with Chapter 2.202 of the County Code, if County acquires information concerning the performance of Contractor on this or other contracts, which indicates that Contractor is not responsible, County may, in addition to other remedies provided in the contract, debar Contractor from bidding or proposing on, or being awarded, and/or performing work on County

contracts for a specified period of time, which generally will not exceed five (5) years or be permanent if warranted by the circumstances, and terminate any or all existing contracts Contractor may have with County.

C. County may debar Contractor if County's Board of Supervisors finds, in its discretion, that Contractor has done any of the following: (1) violated a term of a contract with County or a nonprofit corporation created by County, (2) committed an act or omission which negatively reflects on Contractor's quality, fitness or capacity to perform a contract with County, any other public entity, or a nonprofit corporation created by County, or engaged in a pattern or practice which negatively reflects on same, (3) committed an act or offense which indicates a lack of business integrity or business honesty, or (4) made or submitted a false claim against County or any other public entity.

D. If there is evidence that Contractor may be subject to debarment, the Department will notify Contractor in writing of the evidence which is the basis for the proposed debarment and will advise Contractor of the scheduled date for a debarment hearing before the Contractor Hearing Board.

E. The Contractor Hearing Board will conduct a hearing where evidence on the proposed debarment is presented. Contractor and/or Contractor's representative shall be given an opportunity to submit evidence at that hearing. After the hearing, the Contractor Hearing Board shall prepare a tentative proposed decision, which shall contain a recommendation regarding whether contractor should be debarred, and if so, the appropriate length of time of the debarment. Contractor and the Department shall be provided an opportunity to object to the tentative proposed decision prior to its presentation to the Board of Supervisors.

F. After consideration of any objections, or if no objections are submitted, a record of the hearing, the proposed decision and any other recommendation of the Contractor Hearing Board shall be presented to the Board of Supervisors. The Board of Supervisors shall have the right at its sole discretion to modify, deny, or adopt the proposed decision and recommendation of the Hearing Board.

G. If a Contractor has been debarred for a period longer than five (5) years, that Contractor may, after the debarment has been in effect for at least five (5) years, submit a written request for review of the debarment determination to reduce the period of

debarment or terminate the debarment. County may, in its discretion, reduce the period of debarment or terminate the debarment if it finds that Contractor has adequately demonstrated one or more of the following: (1) elimination of the grounds for which the debarment was imposed; (2) a bona fide change in ownership or management; (3) material evidence discovered after debarment was imposed; or (4) any other reason that is in the best interests of County.

H. The Contractor Hearing Board will consider a request for review of a debarment determination only where (1) the Contractor has been debarred for a period longer than five (5) years; (2) the debarment has been in effect for at least five (5) years; and (3) the request is in writing, states one or more of the grounds for reduction of the debarment period or termination of the debarment, and includes supporting documentation. Upon receiving an appropriate request, the Contractor Hearing Board will provide notice of the hearing on the request. At the hearing, the Contractor Hearing Board shall conduct a hearing where evidence on the proposed reduction of debarment period or termination of debarment is presented. This hearing shall be conducted and the request for review decided by the Contractor Hearing Board pursuant to the same procedures as for a debarment hearing.

The Contractor Hearing Board's proposed decision shall contain a recommendation on the request to reduce the period of debarment or terminate the debarment.

The Contractor Hearing Board shall present its proposed decision and recommendation to the Board of Supervisors. The Board of Supervisors shall have the right to modify, deny, or adopt the proposed decision and recommendation of the Contractor Hearing Board

I. These terms shall also apply to any subcontractors of County Contractors."

9. Sub-Paragraph 2B, Risk Management Program, in Exhibit A-1, Description of Services, shall be replaced to read as follows:

"B. Risk Management Program: Contractor shall, in consultation with Facility staff, develop and maintain an Equipment Risk Management Program. The Facility administrator, or his designee, in consultation with Contractor and Facility's Risk Manager, shall provide direct oversight of all activities to decommission, sequester, and examine any equipment which has been involved in a medical incident. Neither party shall use, clean, discard, alter, or repair any equipment involved in such incident prior to the said equipment's examination. Such Program shall require written documentation of all medical incidents that involve equipment covered under this Agreement, whereby such equipment has or may have caused or contributed to a

patient's injury, serious illness, or death. Such documentation shall describe the incident, the equipment involved in the medical incident, and any subsequent examination of such equipment."

10. Sub-Paragraph 2C, Routine and Emergency Repair Services, in Exhibit A-1, Description of Services, shall be replaced to read as follows:
